| " " " " 5381, Mary V. Lyford fund, | 100.00 |
| | <hr/> |
| Total Cemetery fund, | \$7,600.00 |

The above named securities are in the town safe deposit box in the Citizens National Bank vault. Bonds Nos. 23 and 24 6 per cent, \$1,000 each, of Beatrice, Nebraska, due March 9, 1906, mentioned in prior reports and upon which no interest has been paid for two years, were, last October, exchanged for two \$1,000, 3 per cent bonds due Oct. 1, 1921, issued by Beatrice to refund it's indebtedness at a lower rate of interest. This exchange was assented to by the trustees of the Park Cemetery Association, after considerable correspondence with the Beatrice authorities, as the best thing to do under the circumstances.

Early this month the trustees purchased and delivered to the town the Newcastle School District, Penn., bond for \$500.

In January James W. Brock of Montpelier, Vt., executor of the will of Mary V. Lyford, late of Barre, Vt., forwarded to the town \$100, which was given to, and accepted by the town, under the following clause of Mrs. Lyford's will:

"I give to the town of Tilton, in the county of Belknap and state of New Hampshire, the sum of one hundred dollars, to be held by said town upon trust, as a permanent and perpetual fund, and the income and interest arising from said sum to be expended by and under the direction of the town in the care, maintenance, decoration and improvement of the burial lot of my brother, John H. Varney, deceased, in the grave yard or cemetery where his remains are interred in said town, and in the proper care and preservation of the monument and memorial stones on said lot."

The above \$100 was deposited in the Iona Savings Bank. The cemetery fund in the hands of the town is \$600 greater than last year.

Respectfully submitted,

W. B. FELLOWS, Town Treasurer.

Having examined the foregoing accounts we find them cor-

rectly cast and properly vouched and securities in hand as stated.

FRANK HILL,
L. F. BATCHELDER, } Auditors.

March 3, 1902.

The following tables are submitted for the purpose of gathering the information in one place.

The act severing Tilton from Sanbornton was approved June 30, 1869. The following August the Selectmen of both towns appraised the taxable property of Tilton and returned its value at \$330,083.00. The assessed valuation of Tilton April 1, 1901 was \$957,390.00, an increase of \$627,307.00. The population of the town by the census of 1870 was 1147, and by the census of 1900 it was 1926, an increase of 779.

| | |
|--|--------------------|
| Net reduction of indebtedness since 1869, | \$26,789.73 |
| Amt. paid for bridges and maintenance of highways since 1869, | 53,954.89 |
| Amt. paid for permanent improvements on highways since 1869, | 47,350.79 |
| Amt. paid for sewers since 1869, | 9,451.41 |
| | <hr/> \$137,546.82 |

It would seem as if the growth of the town has warranted a liberal expenditure of money in public improvements, and is to a large degree due to such expenditure. A comparison of its physical condition in the early seventies with its present condition will convince one that the citizens as a whole have been actuated by a broad minded and enlightened policy.

Amount of money expended by the town for roads and bridges, land damages, concrete, sidewalks and sewers, each year from June 30, 1869 to February 15, 1902.

The “school and parsonage fund” note, \$3,166.35, assumed from Sanbornton in 1869, has not been reckoned in the above figures. It is a constant factor each year. Should it be paid and the proceeds invested in high grade securities, the churches would get less benefit from the fund than they do at present.

NIGHT POLICE.

To the tax payers and selectmen of the town of Tilton:

I herewith submit for your consideration a brief report of my doings as night police from Feb. 15, 1901, to Feb. 15, 1902.

| | |
|--|----------|
| Number of lodgers, | 405 |
| Number of persons arrested, | 21 |
| Intoxicated persons sent home, | 7 |
| Intoxicated persons assisted home, | 3 |
| Arrested for out of town officers, | 2 |
| Doors found unlocked and secured, | 31 |
| Disturbances quelled, no arrests, | 4 |
| Store windows found open, | 3 |
| Bicycles found on street, | 2 |
| Complaints investigated, | 4 |
| Goods found outside of four stores and returned. | |
| Value of property reported stolen, | \$100.00 |
| None of the same has been recovered up to date. | |

There has been two alarms of fire in the night time the past year as follows:

Alarm from box 32, at 10.55 July 22, for fire at O. & E. Morrison's Mill, fire extinguished with very little damage.

Alarm from box 12, at 9.45 Nov. 16, 1901, for fire in house of Thos. Atkinson on Park St., damage small, insured.

The police station is now connected with the New England and Citizens' Telephones, and a gong bell placed on the corner of the town hall, which has been found to be very useful to the people who need the assistance of an officer in the night time, and in case of a fire in any part of the district an alarm can be quickly given, by going to the nearest telephone, and calling up the police station, and the same can

be done if a doctor's services are required. By the use of the extension bell I have assisted, eight different families by calling a physician. The use of the said bell costs the town only \$3.00 per year.

Respectfully submitted,

WILLIAM P. LANG, Night Police.

Tilton, N. H., Feb. 15, 1902.

PRECINCT REPORT.

To the voters and tax payers of Tilton Fire District:

The board of Firewards submit the following report for the year ending Feb. 15, 1902: There has been five alarms during the year, as follows:

July 22, 10.45 p. m., alarm for fire at O. & E. Morrison mill, fire under control in short time, damage about \$200.

Aug. 7, 7 p. m., alarm for fire in Raffaely's fruit store, in Copp's block, damage small.

Aug. 22, 4.45 p. m., occurred the most serious fire which we have had for several years, which was Knapp's saw mill, which was destroyed, entailing a loss of about \$4,000.

Nov. 16, alarm for fire at Atkinson's house, on Park St., caught from lamp being left in small window and setting casing overhead afire; damage small.

Nov. 24, telephone from Soldiers' Home saying chimney at Charles Smith's house was burning out and asked for help. One of the extinguishers and several firemen went up, no damage.

The department remains in about the same condition as last year, nothing new having been purchased. We have in good condition about 2300 feet of 2 1-2 inch rubber lined hose on the two carriages, and about 250 feet of 2 inch leather hose on carriage which belongs to the hand tubs. This hose is in poor condition and of not much use, and the present board would recommend that the Firewards be instructed to dispose of it for the best price possible.

ANNUAL REPORT

OF THE

TOWN SCHOOL BOARD.

The annual report for the year ending Mar. 1, 1902, is herewith presented.

Four schools have been maintained as usual, and all with good success. Two of the schools have been under the care of the same teachers as last year. In the other two there has been a change. The new teachers have had experience in teaching elsewhere, and have proved a success here. We think that satisfactory progress has been made in all the schools.

You will see by our report that but a small amount of money has been expended for books the past year; the coming year will need larger additions to the supply of books.

The question came before the board, whether the money to pay the tuition for a high school course, came from the school fund or town fund. If from the school fund, then we would be obliged to economize, or cut short our schools. As the tuition was paid from the town funds, we were able to continue our schools through the usual number of weeks, and have some funds left for another year.

ANNUAL REPORT
OF THE
BOARD OF EDUCATION,
OF UNION SCHOOL DISTRICT, NO. 1, IN TILTON.

In reporting the year's work of our schools in Union District, it may have a sameness to other reports given each year regarding school affairs, but there are some new features of interest that make school life attractive and pleasant.

It was said years ago that the children and teachers could do better work if their surroundings were improved. We do not hesitate to say that the statement has been verified in a very satisfactory manner. With large well ventilated and comfortable apartments, the schools have performed their regular work with energy and interest. Only a few changes in the list of instructors have been made, and these we trust have not been for the hinderance of school work. Inside the building one or two changes or improvements have been needed. A partition in the basement and a covering of concrete. Outside the work has been more elaborate. A concrete walk has been constructed around the building to keep surface water from the foundation ; one from the main entrance to the street, and one from the basement, extending the entire width of building to the side walk. The grounds around the buildings have been graded, and show smooth, even lawns. With the shade trees set at regular intervals, the grounds present a very attractive appearance. The play ground on the south side can be completed at the pleasure of the district.

Our text books were so badly worn that it has necessitated quite extensive replenishing, especially in geography and music books. The so called Spiral Arithmetics introduced last year are meeting with good success. Wishing to improve in our methods, and raise the standard in reading in our schools, we have introduced the Rational Method, which has been introduced in many schools and has attracted public attention by its wonderful results. A series of Geographical Readers have been introduced, and some other new supplementary readers have been added to our list.

A large physical map of the world has been purchased, also another set of maps in Columbia case, 66x46 inches has been placed in the principal's room.

By the addition of a duplicator the principal's work is made much easier.

One of the latest improved pencil sharpeners has been purchased.

A little has been attempted in manual training in the line of basket weaving. It has not proved as successful as we hoped, as we haven't the accommodations best fitted for such work.

Our schools have increased so in numbers that it was necessary to break up our grades somewhat, and some pupils were sent ahead before it was expedient.

We shall be obliged to furnish another room at the opening of the fall term, and perhaps it will be necessary for our spring term.

During the year there have been different pupils registered as follows:

| | Boys | Girl |
